

# Good Farming Practices

Celebrating 80 years as a family owned business, Muzzarelli Farms has been dedicated to providing quality produce to our customers since 1937. What started as a 20-acre vegetable farm focusing on sweet potatoes and pickles, has expanded to over 300 acres and now raises more than two dozen varieties of fruits and vegetables. The roadside farm market, which evolved from selling fresh produce off the back of a tractor-pulled wagon in 1984, now houses over seventy different fruits, vegetables and specialty items. The farm is run by 3rd and 4th generation Muzzarelli's, and continues to expand and flourish.

***"We take great pride in calling ourselves a true family farm."***

***- Charles and Rita Muzzarelli***

Muzzarelli Farms is solar powered and operates using Good Agricultural Practices. Muzzarelli Farms is Non-GMO, Primus Certified and currently in the process of obtaining Organic certification.
